ABOUT US

WHO WE ARE

Outdoor For Schools specialise in manufacturing and installing playground equipment, furniture and solutions to enable children to play and learn outside. We are a trading division of A&E Leisure Ltd, a Reading-based manufacturer with our own factory and depots nationwide.

6 EASY STEPS TO DESIGN YOUR OUTDOOR SPACE

1. YOUR ENQUIRY

Send us your designs and ideas and we will bring them to life! Your unique creations can be named after your school if you wish.

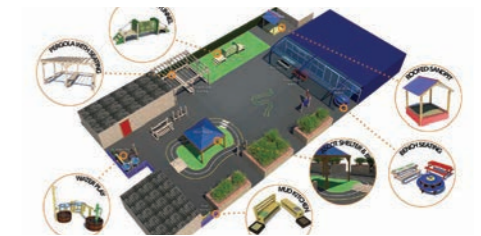

2. FREE SITE SURVEY & CONSULTATION

Our sales and project team will visit your school to discuss your requirements in more detail, take a look at your space and measure up so we can send you visuals.

3. CREATE AND DEVELOP YOUR PLAYGROUND

Our 3D design proposals will show you how we transform your space into an area children will love.

4. PLACING YOUR ORDER

We'll agree a convenient delivery and installation schedule.

5. MANUFACTURED IN OUR UK FACTORY

Our skilled fabricators and project team manufacture and quality check all equipment before it leaves for site.

6. INSTALLATION BY OUTDOOR FOR SCHOOLS STAFF

Our in-house team of installers will provide instructions and after-care guidance where necessary to get the most out of your equipment.

WHAT WE DO

Outdoor For Schools design play equipment and furniture to inspire and excite children. They include:

- » Outdoor play equipment - to encourage both mental and physical development.
- » Shade and shelter solutions - to maximise the use of outdoor space all year round.
- » Safety surfaces and fences - to ensure safe play in a defined space.
- » Planters and sandpits - ideal for improving children's fine motor skills.
- » Outdoor accessories - bins, storage and more to enhance the enjoyment of outdoor space.
- » Indoor and outdoor furniture - for dining, learning and relaxing.

WIDE AGE RANGE

Our play and outdoor equipment is ideal for nurseries, schools and all educational establishments. This includes EYFS, KS1, KS2 and Secondary.

LEARN THROUGH OUTDOOR PLAY

Our key mission is to help children learn through play by challenging

them both mentally and physically. We promote an active lifestyle for children of all ages and abilities, encouraging them to play in their own individual way and use a different tactic each time.

KEY STAGES IN THE NATIONAL CURRICULUM

All our products have been designed to develop the knowledge and skills of children within the predefined Key Stage targets. At Outdoor For Schools we know that the life skills learnt now will set them up for life and that outdoor learning is a key part of this.

COLOUR, SHAPE & TEXTURE

Children love our vibrant colours and the variety of shapes, textures and materials we use. This stimulates imaginations and encourages children to learn through play.

SAFETY AND QUALITY

Designed to inspire and excite, safety and quality matter most at Outdoor For Schools. All our play equipment is manufactured in the UK to comply with EN1176. Many of our products are made from environmentally friendly recyclable materials.

MANAGING YOUR PROJECT

Our team will manage every step of your project from design and manufacture, to installation and after-sales service.

INSPECTION AND MAINTENANCE

Our inspectors visit sites and prepare detailed reports on the condition of your play equipment, highlighting and prioritising any issues related to compliance with European Standards EN1176 and EN1177. To demonstrate due diligence it is recommended that, in addition to your own regular inspections, your play equipment is inspected annually by an external expert. As well as our own play equipment we repair and maintain all major brands. We also maintain safety surfacing whether it would be wet pour, play bark, rubber matting or bonded rubber mulch.

Explore the Outdoors

The outdoors is the best place for children to practice and master their emerging physical, social and mental skills.

- Made in our UK factory.
- Free site survey & no obligation quote.
- Dimensions shown include circulation, fall and free space as defined in EN1176.
- See page 110 for further details.
- See page 138 for price promise.

PLAY TOWERS

Designed and built in our UK factory, Play Towers use high quality quarter-sawn timber posts for outstanding value. They feature single or multiple towers, climbing and walking challenges, ripple slides, tunnels and more.

We design and manufacture our products ourselves which enables us to offer a bespoke service for any of our Play Towers, from configuration to colour themes. Contact us to see how we can bring your space and ideas to life.

LEARNING OUTCOMES

- » Agility and strength.
- » Coordination and balance.
- » Communication and language.
- » Fun and fitness.
- » Understanding and processing instructions.
- » Understanding health and safety.
- » Team building / working with others.
- » Making independent decisions.

ACTIVE PLAY

HEALTH BENEFITS OF OUTDOOR PLAY

BODY

- » Increases fitness levels and builds active healthy bodies.
- » Raises levels of Vitamin D, protecting children from future bone problems, heart disease and diabetes.
- » Improves distance vision.

SPIRIT

- » Stress levels fall when children see outdoor green spaces.
- » Play protects a child's emotional development. The loss of free outdoor time leads to anxiety and depression.

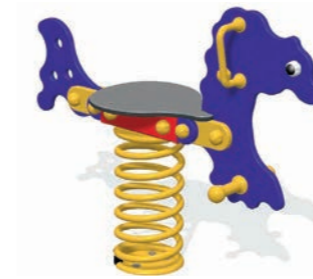

MIND

- » Outdoor education improves critical thinking skills.
- » Schools with outdoor education programmes score higher in national tests for maths, reading, writing and listening.

ACTIVE PLAY
**HAYSTACK
CLIMBERS**

Can I just say what a great team the installers were and how the whole school can't wait to get on it next week! If funds allow in the future, I would certainly come back to you for future developments!

Wendy Aitken, Head Teacher

ACTIVE PLAY

**DID YOU
KNOW?**

All our play equipment is manufactured in the UK using sustainable timber and pressure treated to protect against rot for 10 years.

NET CLIMBERS

Outdoor For Schools offer a range of Net Climber designs aimed at bringing a new dimension to play. With vibrant rope and solid wood, they create impact in any play area. Unlike more traditional play units, there is no correct way to play on Outdoor For Schools Net Climbers, so children can make their own independent risk assessments which creates a valuable learning opportunity through play.

LEARNING OUTCOMES

- » Agility, strength and stamina.
- » Build self-confidence.
- » Coordination and balance.
- » Understanding personal health and safety.
- » Making independent decisions.
- » Problem solving.

SCHOOL LIBRARIES

THEMED LIBRARIES

The fact that I have a leaf as a table, makes me smile each day!
Learning Support Assistant.

Learning Support Assistant.

Transforming the school library into an inspiring themed space.

Outdoor For Schools passionately believe in the importance of books and libraries. The library is the beating heart of many schools. Even in this digital age children still love to interact with books and immerse their imaginations in literature. We think that the library should be a

place that excites and inspires the mind. We believe that it is a place that young people enjoy being and look forward to visiting. Let us develop your library and transform it from just another room in the school to a spectacular feature that your pupils will want to return to again and again.

“The treehouse is fun and I can hide in there with a book,,

Mark

THEMED LIBRARIES

WOODLAND THEME

THEMED LIBRARIES

I love running interventions in the library. The children are happy to come out of class to complete extra work in the space and it is far better than sitting in the corridor at a table.

Learning Support Assistant.

FAIRFIELDS SCHOOL

Most recently Outdoor for Schools has renovated the school library providing an inspiring woodland themed space for students to browse and enjoy books. Along with extensive bookshelves we have provided a treehouse, furniture and a teepee.

AEL has transformed our library space! With a focus on reading for pleasure as part of the National Curriculum the space now supports this. Our children love visiting the library and make use of all of the comfy areas to choose a book and read. The improved engagement

in reading during library lessons has dramatic! Planning the space with AEL was effortless with their creative team of designers. Our design was enhanced through the talented team of people working at AEL with the addition of the leaf-shaped tables and toadstool seats!

Kelly Dillon

BOOK DEN

TREE BOOKSHELVES

I know where I will find him if he needs to have time out... in the Teepee, on the bean bags with a book!

BESPOKE ITEMS

WHAT WE OFFER

A one-stop solution for Play Equipment, Outdoor Furniture, School Grounds & Accessories. Combining experience, expertise and technical knowledge, we provide a seamless service boasting our own in-house design, manufacturing and installation teams. Having all these teams under one roof means we can bring an extra level of creativity and flexibility to our products, whether it's adapting one of our existing designs, or creating a bespoke play area solution from scratch.

HOW DO WE DO THIS?

Outdoor For Schools are proud of the fact that all our play equipment and outdoor furniture is designed and manufactured in our own factory based at our headquarters in Reading. This enables a smooth transition from the design and development of your initial ideas through to manufacture and installation.

BESPOKE SOLUTIONS

Having our own manufacturing base, complete with skilled fabricators and CNC machine operators, allows us to design and build a complete made-to-measure product. Our team are highly skilled in the design and build of play equipment and offer a free consultation service to help you decide what you want to achieve. A comprehensive selection of 2D or 3D design proposals will show you how we transform your space into an area that teachers and children will love.

- Create made-to-measure, bespoke play equipment and outdoor furniture.
- Adapt an existing design, change components or choice of colours.
- Mix and match play equipment to suit space.
- Brand umbrellas and awnings with your school's logo or name.
- Engrave your school logo, motto or messages into your products.

OUTDOOR CLASSROOMS

Outdoor Classrooms provide the perfect learning environment come rain or shine, providing shelter from the elements, shade from the sun and protection from UV rays. We have a variety of options depending on your space, needs and budget.

Shaded Classroom
BROOKHAM SCHOOL

“ Take the classroom outdoors to work, learn, dine and play with our range of versatile solutions. ”

SHADE & SHELTER

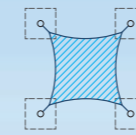

SHADE SAILS

Shade Sails are a stylish and striking alternative to awnings and umbrellas, giving a superb visual effect.

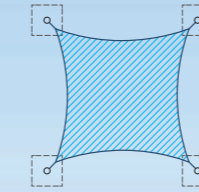

Posts can be in metal or timber to blend in with the environment and existing buildings can be used via bracket connection if suitable.

Our sails are manufactured to order in a variety of shapes, sizes and fixing options. We can produce standard squares, rectangles and triangles, or alternatively maximise the coverage in your area with custom polygonal shapes.

UV 50+ PROTECTION

SHADE & SHELTER

STOBAG TERRACE AWNINGS

Stobag Terrace Awnings are ideal for schools, providing shade in fine weather and shelter in rain. We fit wind sensors to all our awnings to retract the cover in high winds to protect your people and your investment.

FRAME COLOURS

VARIETY OF FABRIC COLOURS

Let our design team help you make the most of your outdoor space. Contact us on 0118 923 0300 to arrange your free site consultation.

SHADE & SHELTER

SHADE & SHELTER

ASCOT SHELTERS

Ascot Shelters are a superb way of increasing your usable outdoor area. The canopies provide UV50+ shade in the sun and high-level water resistance from rain. Made in our UK factory, they are available in a wide range of standard sizes and can also be made to measure to suit any special requirements you may have.

TIMBER FRAME

Manufactured at our UK factory, we can construct a wide range of sizes. The redwood timber is protected with outdoor grade Sadolin stain or Superdec paint allowing a choice of colours and finishes.

The membrane fabric is a strong acrylic 300g/m, UV50+, Lightfast 7-8, Scotchguard or Teflon treated. Available in a wide range of colours.

“ There is a range of optional extras to tailor Ascot Shelters to your exact needs. ”

SHADE & SHELTER GLAZED SHELTERS

Make your outdoor area a warm and cosy space in the winter, and refreshingly inviting in the summer months.

Whether you need shade in the summer or heat in the winter, the design is adaptable to allow you to adjust your outdoor area to suit whatever the weather throws at you, keeping children and teachers protected and comfortable.

The Glazed Shelters structure can be installed with:

- A range of enclosure options including doors, fixed and sliding glass.
- Side screening options including drop arm and vertical awnings.
- Integrated retractable awning for shade.

Take the classroom outdoors with a Glazed Shelter, exclusive to Outdoor For Schools in the UK featuring a unique patented design.

SHADE & SHELTER POLYCARB SHELTERS

Polycarbonate Shelters are a cost effective way to transform an outdoor space, providing a comfortable, sheltered area for children to learn, play and dine. Our high quality, durable and attractive shelters are made-to-measure for your space, for a free site survey and quotation please contact us on **0118 923 0300**.

POLYCARBONATE
SHELTERS

We only use premium aluminium core glazing bars and 16mm multiwall roof sheets for quality and longevity.

SHADE & SHELTER **STAGES & DECKS**

Outdoor For Schools can design and build all shapes and sizes of decking using our experienced in-house design and installation teams.

We can easily incorporate disabled access ramps as well as steps and balustrades at your request.

Decks are often used to create an area for outdoor classrooms, theatre stages and Ascot Shelters.

For a free site survey and quotation please contact us on 0118 923 0300.

SAFETY SURFACES

For Play Equipment with a free fall height more than 600mm, an impact attenuating safety surface is required for compliance with BS EN1176. We supply and install a range of options to suit your play area and budget.

PLAY BARK

A natural safety surface solution that can be installed using either a raised or sunken pit, however it needs regular maintenance and topping up.

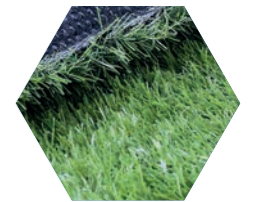

RUBBER MATTING OVER GRASS

Grass grows through the matting installed and over time can be mown normally. The matting reinforces a grass surface, which can be used as an impact attenuating surface up to 1.5m fall height. Consider using mats in high traffic areas such as entry and exit points developing worn, muddy patches.

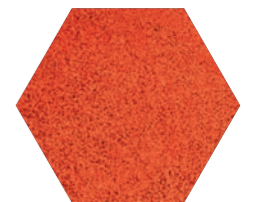

SYNTHETIC PLAY GRASS

Easily laid onto a prepared surface, it needs very little maintenance and is guaranteed for five years. The surface is sterile and will not graze the skin.

WET POUR

We undertake the groundwork, preparation and laying of the wet pour rubber safety surfacing. Wet pour may be laid in black or a variety of colours and mixes. Wet pour graphics can also be installed to bring an area to life.

BONDED RUBBER MULCH

Available in a range of colours, the bonded rubber mulch requires minimal groundwork preparation and can be installed directly onto grass or existing hard surfaces.

FURTHER INFORMATION

CASE STUDIES

“

Can I just say what a great team the installers were and how the whole school can't wait to get on it next week! If funds allow in the future, I would certainly come back to you for future developments! Thanks for all your help!

Wendy Aitken, Head Teacher, High Coniscliffe School, Darlington.

”

“

Working in a school, it is vital that any projects we undertake are carried out on time and on budget. We were extremely delighted with the service regarding these conditions throughout the initial enquiry process until completion.

Damian Sunter, Head Teacher, Halton Hologate.

”

“

From the first time Outdoor For Schools came to Barlborough Primary School I could tell that they fully understood our needs – they just got us. They were the only company who carefully listened to our needs and produced ideas and concepts for our playground based on this.

Bela Webster, Vice Chair PTA, Barlborough Primary School.

”

CORPUS CHRISTI HIGH SCHOOL

Ty Draw Road, Lisvane, Cardiff
CF23 6XL

The school wanted to bring this large, unused, and overgrown internal courtyard back to life. They wanted a space where the children could enjoy the outdoor air, a place to eat their lunch and spend time with friends.

BEFORE

CORPUS CHRISTI HIGH SCHOOL

Clearing the area including the removal of old paving slabs, installation of a new drainage system. We laid a large artificial grass area and installed of Ascot shelters and shade sails for cover and shade. Our Millar circular benches and our 6' picnic benches were supplied to provide seating for 100 students.

AFTER

FAIRFIELDS PRIMARY SCHOOL

Council Road, Basingstoke,
Hampshire RG21 3DH

Outdoor For Schools has renovated the school library providing an inspiring woodland themed space for students to browse and enjoy books. Along with extensive bookshelves we have provided a treehouse, furniture and a teepee.

EAGLE HOUSE SCHOOL

Sandhurst, Berkshire GU47 8PH

Installed Equipment:

Everest Haystack, Birds Nest Swing, Woodland Traverse Posts, Clamber Frame, Terrado System, Stamford Play Tables, Action Station 7, Play Fort, Springers, Hexagonal Planter, Hexagonal Sandpit.

NORWOOD GREEN INFANT SCHOOL

Located in Norwood, London.

Water was the key focal point around which the final design centred. It included a water pump, flumes, spirals and buckets to offer the children interactive water play.

All the play equipment was designed, built and installed in our UK factory by our own schools team.

YEADING INFANT & NURSERY SCHOOL

Carlyon Road, Hayes UB4 0NR

Installed Equipment:

Bespoke Ascot Shelter & fit-out, Traverse Wall & Weighing Scales.

CALDICOTT SCHOOL

Mill Lane, Caldicot, Monmouthshire NP26 5XA

We provided a perimeter beam tensile structure with integrated drainage system, providing a waterproof covered area while minimising the number of pillars. The area was completed with the provision of Tunbridge furniture providing students with a place to sit in during break times.

GILBERT COLVIN PRIMARY SCHOOL

Strafford Avenue, Clayhall, Ilford, Essex IG5 0TL

Installed Equipment:

Aerial Runway, High Cragg, Atlas and K2 Haystacks.

HIGH CONISCLIFFE CE PRIMARY SCHOOL

Ulnaby Lane, High Coniscliffe, County Durham DL2 2LL

Installed Equipment:

K2 Haystack.

FURTHER INFORMATION

PRICE PROMISE

Outdoor For Schools will make every effort to match the price if you are able to find the same specification product at a cheaper price.

GUARANTEE

All products are of the highest commercial quality and are designed, manufactured and tested to withstand the rigours and demands of normal commercial use. All Active Play products and Ascot Shelters carry a 3-year guarantee against faulty workmanship and materials and a 10-year guarantee against wood rot. All furniture items carry a 3-year guarantee. For a full breakdown of warranty terms and conditions on all of our products please contact the sales office on **0118 923 0300**.

Please note that guarantees do not cover misuse, vandalism, extreme weather and consumables such as light bulbs.

- ✓ **Delivery:** Orders will be delivered by Outdoor For Schools and not by third party organisation throughout the UK.
- ✓ **Installation:** A site specific quotation will be provided free of charge.
- ✓ **Assembly:** Furniture is delivered fully assembled to mainland UK at no extra charge.
- ✓ **Product Development:** Specifications may vary as Outdoor For Schools have a policy of constant review.
